## **Just for Tonight**

## Steppenwolf

Walk the lonely highway
Neon signs light the road
Won't you help me find the right way
To a place of time and hope

Where we all get kind of mellow And where life is not a joke We're here today gone tomorrow All in life is ours to own

You are with me, I won't ask you why, you are old enough to kno  $\ensuremath{\mathtt{w}}$ 

I will move you, and we'll draft away, then tomorrow I will go

Just for tonight, I will love you darlin', just for tonight

Is this cycle never ending
Or am I not meant to know
Lost in life am I pretending
Chasing winds that never blow

Yet in my life I've know many Sharing moments as we go Yes we've all had times so empty That if someone asked we'd go

I have held you, in a special way, but I won't see you again As I leave you sorrow blinds my eyes to the things that are wit hin

Just for tonight, I will love you darlin, Just for tonight

As I touch you, we will say goodbye, 'cause the times has come to go

You believe me, and I want to say, I will never let you go

Just for tonight, I will love you darlin, Just for tonight Just for tonight, I will love you darlin, Just for tonight
