Tighten Up Your Wig

Steppenwolf

What can you see with your ear on the ground Try to lift up your feet, girl, and take a look around Let me see your eyes girl We've got to make them big If you'd like to see the truth I better tighten up your wig

Your mind is too narrow, and it's no surprise If you fell on a pin, well, you'd be blind in both eyes Oh, let me see your head, girl, we've got to make it big Until your ears come apart, I better tighten up your wig

Watch out for the lunch bunch, they'll try to bring you down Don't get hung up in the shower, baby, you might drown Oh yeah, oh, your head looks kinda big Before I loose you mind, girl, I better tighten up your wig

Just before we go, I'd like to mention Junior Wells We stole his thing from him, and he from someone else Oh, yeah, yeah, yeah, he plays the blues like few before May he play forevermore
