

Don't You Leave Us Halfway

Steps

You do what you do, then you get what you get
Then you wonder why there ain't something more
You're my greatest view, but I'm not gonna let
Let love burn us down to a dirty war
Holding onto you like an old-school record, I can't let go
The tables are turning tonight

Yeah, it's true, you can go your own way
You, if you can face the heartache
True, we can go the hard way
You, or you can meet me halfway
If you're giving up now, I hope it's worth it, hope it's worth it
If you stay, so what if you freak out, no nothing is perfect
But don't you leave us halfway

I'll make it alright, I won't make you wrong
If we can be brave, we'll be beautiful
The last time I checked I was beyond
And everything else you were looking for
Holding onto you like an old-school record, I can't let go
The tables are turning tonight

Yeah, it's true, you can go your own way
You, if you can face the heartache
True, we can go the hard way
You, or you can meet me halfway
If you're giving up now, I hope it's worth it, hope it's worth it
If you stay, so what if you freak out, no nothing is perfect
But don't you leave us halfway

We're just getting started
Don't you wanna know how far we could go?
And the question is burning tonight

Yeah, it's true, you can go your own way
You, if you can face the heartache
True, we can go the hard way
You, or you can meet me halfway
If you're giving up now, I hope it's worth it, hope it's worth it
If you stay, so what if you freak out, no nothing is perfect
But don't you leave us halfway
