## Steps

Wake up, go to work  
I was wishing for the past again  
It all stopped, but my world is  
Slowly starting to turn again

So I walked outside, I stood in the rain  
I saw the love and I felt the pain  
I am alone but I'm on my way  
Cause I, cause I, I'll be okay  
Cause I, cause I, I'll be okay

And you~~, and isn't only are  
And with my broken heart  
I knew~~, you'd tried to dim my star  
And leave me in the dark

But I am alive, like a firefly  
Like a firefly  
Li-like a firefly  
I am alive, like a firefly  
Like a firefly  
Li-like a firefly

Your eyes would never stop  
Like a ghost in a nightmare  
But then your lies, woke me up  
And I'll move on with my fairytale

And I walked upside and I saw the sun  
I'd looked around, I smiled at someone  
Jumped in the cab and I'm on my way  
Cause I, cause I, I'll be okay  
Cause I, cause I, I'll be okay

And you~~, and isn't only are  
And with my broken heart  
I knew~~, you'd tried to dim my star  
And leave me in the dark

But I am alive, like a firefly  
Like a firefly  
Li-like a firefly  
I am alive, like a firefly  
Like a firefly  
Li-like a firefly

And you~~, and isn't only are  
And with my broken heart  
I knew~~, you'd tried to dim my star  
And leave me in the dark

But I am alive, like a firefly  
Like a firefly  
Li-like a firefly  
I am alive, like a firefly  
Like a firefly  
Li-like a firefly

But I am alive, like a firefly  
Like a firefly  
Li-like a firefly  
I am alive, like a firefly  
Like a firefly  
Li-like a firefly
