

# Glitter & Gold

## Steps

You paint a picture of paradise  
The colors shine and sparkle  
You say you want me but don't think twice  
You're caught in a vicious circle  
While I was wishing for what could have been  
I was blind and taken in  
You build the world by promising  
With empty words

Wrapped in glitter and gold  
Were the lies you told me that won't go away  
Don't try to pretend  
We can turn around and start it all again  
Glitter and gold  
There's no happy ending cause this is goodbye  
The truth is too late  
Only takes so much before my heart will break  
And now it's too late

It's funny how the sweetest lies  
Pass through your lips like candy  
Another trick, a new disguise  
Another tale to tell me  
I've heard all the stories that you use  
All the lines and broken truths  
You make a fool believe in you  
With empty words

Wrapped in glitter and gold  
Were the lies you told me that won't go away  
Don't try to pretend  
We can turn around and start it all again  
Glitter and gold  
There's no happy ending cause this is goodbye  
The truth is too late  
Only takes so much before my heart will break  
And now it's too late

It's too late  
And now it's too late  
It's too late  
Glitter and gold

Glitter and gold  
There's no happy ending cause this is goodbye  
The truth is too late  
Only takes so much before my heart will break

Wrapped in glitter and gold  
Were the lies you told me that won't go away  
Don't try to pretend  
We can turn around and start it all again  
Glitter and gold  
There's no happy ending cause this is goodbye  
The truth is too late  
Only takes so much before my heart will break  
And now it's too late
