

One Touch

Steps

I can see you in the dark
Like a light shining back at me
IOU stuck on my heart
Lost for words, you know I cannot speak

Till you're here again, no, I'm not listening
To anybody and what they're gonna say
Till you're back to me
Tell me can you see, babe

One touch is all it takes
One touch and I'm coming home to you
History we can't erase
One touch, say we'll make it through
Hold me through the rain
Time and time again
When you're lonely, know I will be here
For one touch, one touch, one touch

Had a vision you were here (You were here)
Had a dream you were sleeping by my side
When I woke up, you disappeared
Say we'll keep trying, say you're not scared to fight

Till you're here again, no, I'm not listening
To anybody and what they're gonna say
Till you're back to me
Tell me can you see, babe

One touch is all it takes (All it takes)
One touch and I'm coming home to you
History we can't erase
One touch, say we'll make it through
Hold me through the rain
Time and time again
When you're lonely, know I will be here
For one touch, one touch, one touch

I don't want nobody to love
If it's not you
If it's not you
I don't want nobody to kiss
If it's not you
If it's not you
I don't want nobody to hold
If it's not you
If it's not you
I don't want nobody to touch
If it's not you
If it's not you

One touch, one touch, one touch
I need one touch
One touch, one touch, one touch
I need one touch

One touch is all it takes (All it takes)

One touch and I'm coming home to you
History we can't erase (Can't erase)
One touch, say we'll make it through
Hold me through the rain
Time and time again
When you're lonely, know I will be here
For one touch, one touch, one touch
One touch

One touch (It's all I need, babe)
One touch (It's all I need, babe)
One touch
One touch (It's all I need, babe)
One touch (It's all I need, babe)
One touch (It's all I need)
