

Say You'll Be Mine

Steps

(Say you'll be mine)
Baby I was hypnotised
When I looked into your eyes
Saw the love I'd been waitin' for
Couldn't help but fantasize
About a world where you and I
Stay together forever more

Don't hesitate
'Cause I can't control my feelings
Just can't wait
Now I know where this is leadin'

Baby please this heart's on the line
Don't waste this precious time
Say you'll be mine
It's not hard to do
Just tell me you feel it too
Baby, it's time
Say you'll be mine (say you'll be mine)

Took a spark to start the fire
Fan the flame of my desire
Turn the light on my destiny
And it took me by surprise
All the love I felt inside
Now I know it was meant to be

And step by step
I can feel how close we're getting
Can't stop yet
'Cause I know where this is headin'

Baby please, (baby please) this heart's on the line
Don't waste this precious time (don't waste it)
Say you'll be mine (say you'll be mine)
It's not hard to do (no, no)
Just tell me you feel it too (feel it too)
Baby, it's time (it's time)
Say you'll be mine (say you'll be mine)
Baby, it's time (it's time)
Say you'll be mine (say you'll be mine)

Say it, all ya gotta do is say it (just say it)
You're the one I've been waiting for
Say it, all you gotta do is say it (just say it, aah)

Baby please, this heart's on the line
Don't waste this precious time
Say you'll be mine
It's not hard to do (not hard to do)
Just tell me you feel it too (feel it to)
Baby, it's time (c'mon)
Say you'll be mine (say you'll be mine)
(Say it) say you'll be mine (say you'll be mine)
(Say it) say you'll be mine (say you'll be mine)
(Say it) say you'll be mine (say you'll be mine)

Baby, it's time (it's time)
Say you'll be mine
Baby please, (baby please) this heart's on the line
Don't waste this precious time
Say you'll be mine (said you'll be mine)
It's not hard to do (not hard to do)
Just tell me you feel it too (feel it too)
Baby, it's time (it's time)
Say you'll be mine (say you'll be mine)
Say you'll be mine
