

# Space Between Us

## Steps

Never thought we did like this  
When nothing left to say  
When it hurts too much to kiss  
It is time to walk away

The dreams we dreamed  
A like you bare  
That everything we had

Ohh, I had love when I had time all  
That is left to the space between us  
When to fall can pouring rhyme, your rhyme  
Ohh, that the tears can move to cry  
All that is left to the space between us  
And I don't want to lose my mind, my mind

And another place in time  
You don't love at from the air  
With the battles we bought fight  
We're off from the sun again

And I'd thought I  
The Castasenchase  
And only one we amaze

Ohh, I had love when I had time all  
That is left to the space between us  
When to fall can pouring rhyme, your rhyme  
Ohh, that the tears can move to cry  
All that is left to the space between us  
And I don't want to lose my mind, my mind

Ohh, I had love when I had time all  
That is left to the space between us

Ohh, I had love when I had time all  
That is left to the space between us  
When to fall can pouring rhyme, your rhyme  
Ohh, that the tears can move to cry  
All that is left to the space between us  
And I don't want to lose my mind, my mind
