

# You Make Me Whole

## Steps

We both know  
The things we're not  
(We don't need no one to tell us)

What this is  
Like we forgot  
(We don't need no one to tell us)

They are the liars and we are the truth  
Nothing they say comes between me and you  
Know I love ya  
Even when I hate ya  
Even when I'm breaking in two

I act like I am better on my own  
And baby when you're gone that's when I know  
You make me whole  
Whenever we're apart  
I'm only half a heart  
You need to know  
You make me whole

You're the fire to my spark  
Anyone can see  
You're the light to my darkness  
Where would I be?  
You're the writing on my wall  
Every time you go  
I know I know  
You make me whole whole  
You make me whole whole  
You make me whole whole  
You make me whole whole

Fall in love  
Or fall apart  
(We don't need no one to tell us)  
When to stop  
Or where to start  
(We don't need no one to tell us)

Nobody else makes me feel like you do  
I know the best part of me and it's you  
Know I love ya  
Even when I hate ya  
Even when I'm breaking in two

I act like I am better on my own  
And baby when you're gone that's when I know  
You make me whole  
Whenever we're apart  
I'm only half a heart  
You need to know  
You make me whole

You're the fire to my spark  
Anyone can see

You're the light to my darkness  
Where would I be?  
You're the writing on my wall  
Every time you go  
I know I know  
You make me whole

I will be I will be  
I will be there when you need me  
(You make me)  
(You make me)

I will be I will be  
I will be there when you need me  
(You make me)  
(You make me)

I will be I will be  
I will be there when you need me  
(You make me)  
(You make me)

I will be I will be  
I will be there when you need me

I act like I am better on my own  
And baby when you're gone that's when I know  
You make me whole  
Whenever we're apart  
I'm only half a heart  
You need to know  
You make me whole
