

Can't Stop

Stereo Skyline

I can't really explain it
I can't seem to contain it
I feel a little insane, something inside of my brain
And I can't hit the break, pick it up, pick it up, hit the break

It feels like I can't stop
Beat so big, it's too hot
Take my place at the top
Seems like like I can't stop, can-can't stop
Oh no, make you watch in slow-mo
Look too good for photos
You should know I can't stop, can-can't stop

It feels just like a disease
The crazy creeps up inside of me
I feel a little insane, something inside of my brain
And i can't hit the break, pick it up, pick it up, hit the break

It feels like I can't stop
Beat so big, it's too hot
Take my place at the top
Seems like like I can't stop, can-can't stop
Oh no, make you watch in slow-mo
Look too good for photos
You should know I can't stop, can-can't stop

Can't stop, can-can't stop
Can't stop, can-can't stop

It feels like I can't stop
Beat so big, it's too hot
Take my place at the top
Seems like like I can't stop, can-can't stop
Oh no, make you watch in slow-mo
Look too good for photos
You should know I can't stop, can-can't stop

Can't stop, can-can't stop
Can't stop, can-can't stop
