

Crest

Stereolab

If there's been a way to build it
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
If there's been a way to build it
There'll be a way to destroy it
Things are not all that out of control
