

## Two Finger Symphony

**Stereolab**

Am I an object in your life that would bring you things, some satisfaction

You put me on the square mile, I'm fascinated fed by delusion

Above me, below me and around attracted

Irredeemably by the void to falling

Falling like a puppet who's heart would awaken

During the fall would wake up, oh shit

Am I an object in your life that would bring you things, some satisfaction

You put me on the square mile, I'm fascinated fed by delusion

Irredeemably by the void to falling

During the fall would wake up, oh shit
