All this violence is puzzling
Maybe the law should intervene
All this violence is threatening
Hate is in need of censoring
Ban hate and violence for our convenience
Ban hate and violence for our convenience
All this violence is puzzling
Maybe the law should intervene
All this violence is threatening
Hate is in need of censoring
Ban hate and violence for our convenience
Ban hate and violence for our convenience
Don't we all know the dangers
Of two conflicting viewpoints?
An active troublemaker
Banning the flame of dissent
So much aggravation
To all haters
We'll create some laws to stop you
You're the danger, you really shouldn't be allowed to
They piss on morality
They detest humanity
Those savages should be banned
They're so deeply offensive
Somebody shut them up
They'll still be full of shit
But it's handy
We'll blame it on human nature
They piss on morality
They detest humanity
Those savages should be banned
They're so deeply offensive
Somebody shut them up
We'll censor the hell out of you
We'll coerce evil out of you
We'll cut your tongue if we have to
You're the baddies and we hate you
We'll censor the hell out of you
We'll coerce evil out of you
We'll cut your tongue if we have to
You're the baddies and we hate you
