

Don't Know What Ya Got

Stereophonics

I don't know what you're doing tonight
Did you bother to dress up?
Or did you go for a ride?
I don't know what you're doing tonight
I'm trying hard not to call up
But I'm losing my mind

And now that you ain't by my side, yeah
I have to say I realise
It seems like time is slowing down
And my head spins 'round and 'round
I guess you don't know what you got
Till she's got up and walked out

I don't know what you're drinking tonight
Are you having a good time?
Am I inside your mind?
I don't know where you're sleeping tonight
Have you found a new man yet?
Is he doing you right?

And now that you ain't by my side
I have to say I realise
It seems like time is slowing down
I got my head spinning 'round and 'round
I guess you don't know what you got
Till she's got up and walked out

It seems like time is slowing down
And my head spins 'round and 'round
I guess you don't know what you got
Till she's got up and walked out, yeah

It seems like time is slowing down
I got my head spinning 'round and 'round
I guess you don't know what you got
Till she's got up and walked out, yeah

It seems like time is slowing down
And my head spins 'round and 'round
I guess you don't know what you got
Till she's got up and walked out, yeah, yeah

Till she's got up and walked out
My head spinning 'round and 'round and 'round and 'round
Yeah
Until she's got up and walked out
Yeah, yeah
