

# Elevators

## Stereophonics

You fight, you lie  
And you push and you bite  
And you pull out of spite  
And you feel it's alright

And we fall into the flame tonight  
And we burn the candlewax all night  
Yeah

We're like elevators going up and down  
While everybody's going out down town  
You're reeling over inside information  
And all I'm getting is your accusations

Tonight - you look like you wanna fight  
And I feel you're dreaming it up inside

We try to forget  
To forgive, we must live  
It's a crime to waste time  
So we try to make up

And we fall into the flame tonight  
And we burn the candlewax all night  
Yeah yeah yeah

We're like elevators going up and down  
While everybody's going out down town  
You're reeling over inside information  
And all I'm getting is your accusations

Tonight - you look like you wanna fight  
And I feel you're dreaming it up inside  
Yeah yeah yeah yeah yeah

And we fall into the flame tonight  
And we burn the candlewax all night  
Yeah yeah yeah

We're like elevators going up and down  
While everybody's going out down town  
You're reeling over inside information  
And all I'm getting is your accusations

Tonight - you look like you wanna fight  
Yeah yeah - and we burn the candle wax all night  
Yeah yeah yeah

We're like elevators  
We're like elevators  
We're like elevators  
We're like elevators  
Oh yeah
