

# Hungover for You

Stereophonics

You said I stopped you flying  
I clipped your wings  
Like I put you in a cell  
But with four floors of things

Yeah, I'd be lying  
If I said I feel like the man  
It's like the bottle I once loved  
But now I cannot have

You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
Oh I'm hungover for you

A million dollars don't tempt me  
Where you wanna be  
But it's still looking like you  
And it's still looking like me

Took for granted's got up and took me  
And I hate what you love  
What you love ain't for me

You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
Oh oh

When did the note in our song  
Fall off the scale?  
It's not what we hate in this thing  
It's the things we should take  
I know you don't get what I get  
I don't get what you do  
But I know that the thing that I need  
Is the love from you

You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
You don't love me

You don't love me  
You don't love me no more  
Oh

You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
You don't love me  
You don't love me  
You don't love me no more  
Oh

(Love me, don't love me, don't love me no more)  
Oh (Love me, don't love me, don't love me no more)  
Oh (Love me, don't love me, don't love me no more)

Oh oh

(Love me, don't love me, don't love me no more)  
Oh (Love me, don't love me, don't love me no more)  
Oh (Love me, don't love me, don't love me no more)  
(Oh)

I'm hungover for you  
I'm hungover for you
