

## I Got Your Number

Stereophonics

You think your pretty special, mixing your social circle  
I watch you dance the night away  
You seem to hypnotise me, we drank until the sunday  
And when i woke you'd gone away

But i know, and you know  
1, 2, 3, 4, 5, 6, 7, 8  
You told me lies right to my face,  
i've got your number your a fake

One too many times i took the bate  
You told me lies right to my face,  
i've got your number your a fake

You act like your so happy, you play them all so badly  
put down your pills and walk away  
you line up on your mirror  
inventing all your grandeur?  
Why don't you stare in to your face

But i know, and you know  
1, 2, 3, 4, 5, 6, 7, 8  
You told me lies right to my face,  
i've got your number your a fake

One too many times i took the bate  
You told me lies right to my face,  
i've got your number your a fake, fake  
I know, yes i know

1, 2, 3, 4, 5, 6, 7, 8  
i've got your number your a fake  
One too many times i took the bate  
You told me lies right to my face,  
i've got your number your a fake
