

# Running Round My Brain

Stereophonics

Lucille's playing  
Dancing all night long  
Up all night  
Singing her favourite song  
High or low, what a show, all I know

Is you been running 'round my brain again  
Yeah you been running 'round my brain again

I've been praying  
And I'm no preacher's son  
I've come unstuck  
Still wishing our time will come  
Fast or slow  
Come and go, all I know

Is you been running 'round my brain again  
Yeah you, been running 'round my brain again  
Oh you, been running 'round my brain again  
Yeah you, been running 'round my brain again

Cut me loose

Yeah you, been running 'round my brain again  
Yeah you, been running 'round my brain again  
Yeah you, been running 'round my brain again  
And you, been running 'round my brain again  
Yeah you, been running 'round my brain again  
Yeah you, been running 'round my brain again  
Oh you, been running 'round my brain again
