

# Glory Days

Stereos

Drunken tattoos, man how they fade  
We've had some good times, and some things never change  
Do you remember the songs we used to sing?  
We still don't have the words quite right, but that don't mean a thing

When we come back, it gets like that  
Turn it up again  
In our old spot, 15 shots  
Just like we never left

And we won't go home  
Unless we're leaving together  
"I've had one too many drinks tonight"  
Said none of us ever  
So let's get all lit up  
We don't care what goes down  
It's the glory days all over  
When we're back in town

Those same old stories you've heard a million times  
It's funny how the details change from your version to mine  
When we come back, it gets like that  
Throw your hands up and then  
Wave goodbye, but the good times  
Keep comin' right back again

And we won't go home  
Unless we're leaving together  
"I've had one too many drinks tonight"  
Said none of us ever  
So let's get all lit up  
We don't care what goes down  
It's the glory days all over  
When we're back in town

From where we started to where we ended on that ride  
Who knew those songs would be the soundtrack of our lives?  
And those days are never gone, no we won't let them die  
The Glory Days live on...

And we won't go home  
Unless we're leaving together  
"I've had one too many drinks tonight"  
Said none of us ever  
Let's get all lit up  
We don't care what goes down  
It's the glory days all over  
When we're back in town, yeah  
(When we're back in town)  
So let's get all lit up  
We don't care what goes down  
It's the glory days all over  
When we're back in town, yeah
