

Well, I don't care bout what you need
Yeah, where you from, or who you be
Cause I can tell you just wanna be yourself
So come be you right next to me

Yeah, we could kick it on the low
Another whiskey? Let me know
I know the deal, and I'm trying make you feel
Like I could stay or I could go, baby

So tell me what you feel
Yeah, what you feel...

We could just smoke, baby
What you want? What you want? What you want?
We could just smoke, baby
Yeah, we could just
We could just smoke, baby
What you want? What you want? What you want?
We could just smoke, baby
Yeah, we could just
Yeah, we could just

Something brought me here with you
You're something borrowed, and I'm blue
And all night long, we'll just talk about a song
And how it made you feel the truth, baby

So tell me what you feel
Yeah, what you feel, baby...

We could just smoke, baby
What you want? What you want? What you want?
We could just smoke, baby
Yeah, we could just
We could just smoke, baby
What you want? What you want? What you want?
We could just smoke, baby
My shoulder, your head
I don't care what they say bout it all

(Come on, yeah!...)

It's getting early, should I go?
We could talk about some more
Or we could just

Smoke, baby
What you want? What you want? What you want?
We could just smoke, baby
Yeah, we could just
We could just smoke, baby
What you want? What you want? What you want?
We could just smoke, baby
Yeah, we could just
Yeah, we could just
