

## Sunset Gold

Stereos

We used to drive right to the edge  
But then we lost it all somewhere  
The brightest sunset never ends  
So I will find you once again

We hit the night, baby  
We hit the night  
Light in my mind, baby  
Light in my mind  
You were a song, baby  
You were my sunset gold

Let's move the Summer 'til it bends  
And live inside it 'til the end  
We were something unreal to the world  
Well I still go there, unable to pretend

We hit the night, baby  
We hit the night  
Light in my mind, baby  
Light in my mind  
You were a song, baby  
You were my sunset gold

We lit it up until we made it  
We were the always running, yeah  
A little lonely when we faded  
But I'll come back again

We hit the night, baby  
We hit the night  
Light in my mind, baby  
Light in my mind  
You were a song, baby  
You were my sunset gold
