

Way Back Home

Stereos

Desert haze is all I've ever known
Lost among the wildlife, those days are never gone
But it doesn't feel the same without you when I sing that song
Another day, and I'll keep movin' on

I've had feelings, lost along the way
One too many whiskeys and I've never had to pay
Crossed myself and hoped to find you when the morning came
But that's not where our cards were meant to lay

I'm a ghost on the road leading back to your heart
When you pass me by, I'll be waiting
We belong to the coast and the place where we started to feel it...

I'll be there when you need me
Be a light in the dark, baby
Cuz we all need a way back home
Hold on when you feel me
I'll be moving you on, baby
Cuz we all need a way...
A way back home...

I'm cruisin' by on memories alone
Way too many heartbreaks for I've yet to atone
But I've got time to make this right before I'm dead and gone
I just want to be your way back home

I'm a ghost on the road leading back to your heart
When you pass me by, I'll be waiting
We belong to the coast and the place where we started to feel it...

I'll be there when you need me
Be light in the dark, baby
Because we all need a way back home
Hold on when you feel me
I'll be moving you on, baby
Because we all need a way...
A way back home...

So it's a long road to get there
But I will go if you're with me
And I always said there would be one way back
A way back home...

I'll be there when you need me
(There when you need me)
I'll be there when you need me
(There when you need me)
I'll be there when you need me
(There when you need me)
Because we all need a way...
A way back home
