

## Afterthoughts (Goodbye)

Stereoside

Hey what's it gonna be  
Hey I'm staring through the tree's  
I can feel it comin round I can feel it in the breeze  
It's tearing through my heart and it brings me to my  
knee's  
How was I to know that it wasn't meant for me  
How was I to know that it wasn't meant to be  
Hey tear it down and build again  
Hey I'm pushin through the sand  
I can feel it in the sun as it slowly burns my skin  
It's tearing through my heart and I know that I can't win  
How was I to know that it wasn't meant to be  
How was I to know that it wasn't meant for me  
So I guess I'll say goodbye  
I can feel it in the sun I can feel it in the breeze  
Well baby not tonight  
It's tearing through my heart and it brings me to my  
knee's  
How was I to know that it wasn't meant to be  
So I guess I'll say goodbye  
How was I to know that it wasn't meant for me.
