

Apple Pie

Stereoside

No money but lot's of fun yeah

Get stoned lie naked in the sun

Oh catch a bullet if you think you can

There's nothing more American, no

Rattlesnakes whatever it takes, yeah

Tin foil hats to communicate, and

Don't think we don't make mistakes

No no no, we rise above

Gunfights and kryptonite

It's American as apple pie, yeah

Light the fires on the 4th of July

We're gonna blind you

A quick fix, old Indian trick, yeah

Loose lips leave satisfied hips

Well, it's American as apple pie

'cause we're made in America (made in America)

Made in America (Made in America)

From first place to fatal mistake yeah

But you can buy a plastic face

And you can plaster it out in digital space yeah

So we know who you are

Gunfights and kryptonite

It's American as apple pie

Light the fires on the 4th of July

We're gonna blind you

Quick fix, old Indian trick, yeah

Loose lips leave satisfied hips
Well, it's American as apple pie
Oh, made in America

Gunfights and kryptonite
It's American as apple pie, yeah
Light the fires on the 4th of July
We're gonna blind you

A quick fix, old Indian trick, yeah
Loose lips leave satisfied hips
Well, it's American as apple pie
'Cause we're made in America
Made in America (made in America)
Made in America (made in America)
Made in America

Gunfights and kryptonite
It's American as apple pie, yeah
Light the fires on the 4th of July
We're gonna blind you

A quick fix, old Indian trick, yeah
Loose lips leave satisfied hips
Well, it's American as apple pie
Made in America
Made in America (made in America)
Made in America (made in America)
Made in America
