

stereoside - signals

maybe i never meant to hurt you  
maybe i should have called that day  
maybe i shouldn't disappoint you  
when you asked me to come  
i just get in the way

maybe i wasn't there to touch you  
maybe i just dont feel that way  
maybe i never meant to push you  
when you asked me to hold you  
i feel out of place, yeah

look at all the signals you send  
waiting for the warning to end  
look at all the signals you send  
waiting for the warning to end

maybe im not the one to talk to  
maybe ill only cause you pain  
maybe i will only disappoint you  
so dont ask me to change  
cause you made me this way, yeah

look at all the signals you send  
waiting for the warning to end  
look at all the signals you send  
waiting for the warning to end

cause i dont need to make pretend  
i never meant the things i said  
with every signal that you send

look at all the signals you send  
waiting for the warning to end  
look at all the signals you send  
waiting for the warning to end
