

## Last Dance

Steve Angello

It's you and me against the world  
And this is our chance  
Noone can stop us now  
Cause this will be our last dance  
It's you and me against the world  
And this is our chance  
Noone can stop us now  
Cause this will be our last dance

I'm not here to help you out  
I'm just here for you to help you find your way out  
Mmm, we both know it won't be easy  
But we will take the situation in our own hands

It's you and me against the world  
And this is our chance  
Noone can stop us now  
Cause this will be our last dance  
It's you and me against the world  
And this is our chance  
Noone can stop us now  
Cause this will be our last dance

It's you and me against the world  
And this is our chance  
Noone can stop us now  
Cause this will be our last dance  
(This will be our last dance...)

Noone can stop us now  
Cause this will be our last dance
