

2 In A Million

Steve Aoki

You said what are the chances
We found each other
Through all the madness?
I don't need an answer
I've always heard that
These things just happen
I know what you're feeling, I do
Cause you know I'm feeling it too
No pill gets me higher than you
Hardest part is we ain't going home yet

How many people in the world
Out looking for a love like this tonight?
How many people in LA
Out there just searching for a sign?
How many people in the crowd
And I still wind up by your side?
Never never let you go
Never never let you go

We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million

We're getting faster
I can't imagine
Wanting to slow down
Baby, you're getting closer
Testing the water
I wanna know how deep it goes
I know what you're feeling, I do
Cause you know I'm feeling it too
No pill gets me higher than you
Hardest part is we ain't going home yet

How many people in the world
Out looking for a love like this tonight?
How many people in LA
Out there just searching for a sign?
How many people in the crowd
And I still wind up by your side?
Never never let you go
Never never let you go

We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million

Hey, hey
We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million

I know what you're feeling, I do
Cause you know I'm feeling it too
No pill gets me higher than you

How many people in the world
Out looking for a love like this tonight?
How many people in LA
Out there just searching for a sign?
How many people in the crowd
And I still wind up by your side?
Never never let you go
Never never let you go

We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million
Hey, hey
We're two in a million
We're two in a million
(Searching for a sign)
