

Uh, one by one
And the men come two by two
Girls just wanna have fun
Make me wanna leave with you
I been a bad bad girl
You look like a bad boy too
I let you in my world
If you can manage it, come through

Uh, one by one
And the men come two by two
Girls just wanna have fun
Make me wanna leave with you
I been a bad bad girl
You look like a bad boy too
I let you in my world
If you can manage it, come through

One by one
And the men come two by two
One by one
And the men come two by two
Make me wanna leave with you

One by one, two by two
One by one, two by two
One by one, two by two
One by one, two by two
One by one, two by two
One by one, two by two
One by one, two by two
One by one, two by two

And the men come two by two

Don't [?] with your eyes closed
Oh baby too slow
Gotta be quick to seize the night show, night show

One by one, two by two
One by one, two by two
One by one, two by two
One by one, two by two
One by one, one by one
One by one, one by one
One by one, one by one
One by one, one by one

One by one
And the men come two by two

One by one
And the men come two by two
Girls just wanna have fun
Make me wanna leave with you
I been a bad bad girl
You look like a bad boy too

I let you in my world
If you can manage it, come through

Uh, one by one
And the men come two by two
One by one
And the men come two by two

Uh, one by one
And the men come two by two
Girls just wanna have fun
Make me wanna leave with you
I been a bad bad girl
You look like a bad boy too
I let you in my world
If you can manage it, come through
