

# All Hype

Steve Aoki

We been going hard all night  
All right staying up till the sunlight  
Think about you but you rude at the wrong time  
She bad news and her friends say I'm all hype  
Oh well, well

We been going hard all night  
All right staying up till the sunlight  
Think about you but she rude at the wrong time  
She bad news and her friends say I'm all hype  
Oh well, well, well

And we can't go to sleep now  
Playing with fire I'ma burn out  
She want to get dirty in the worst way  
Took a double shot on a Thursday

And we can't go to sleep now  
Playing with fire I'ma burn out  
I know she bad for me in the worst way  
So I took a double shot and it worked great

We been going hard all night  
All right staying up till the sunlight  
Think about you but she rude at the wrong time  
She bad news and her friends say I'm all hype  
Oh well, well

We been going hard all night  
All right staying up till the sunlight  
Think about you but she rude at the wrong time  
She bad news and her friends say I'm all hype  
Oh well, well, well, well

And we can't go to sleep, can't go to sleep  
You take what you want then you leave  
Want then you leave  
Hard truth comes when I'm all alone  
Now you texting from another time zone  
And thoughts from your past they just come along  
Gave you all I did it wrong  
I can feel your choke hold  
Looking back it's cut throat  
I ain't ever sleep now  
Playing with fire I'ma burn out

We been going hard all night  
All right staying up till the sunlight  
Think about you but she rude at the wrong time  
She bad news and her friends say I'm all hype  
Oh well, well

We been going hard all night  
All right staying up till the sunlight  
Think about you but she rude at the wrong time  
She bad news and her friends say I'm all hype  
Oh well, well, well, well
