Back 2 U

Steve Aoki

I was a child walking with giants a hundred feet tall
Out in the wild, you wouldn't believe all the things that I saw
I took a high road out in the open under those stars
And all the while, I just got closer to going too far

So now I'm running like you set me free out in the wild
I know you want me to come home but it might take a while
I got my heart in my hands while my head's up in the clouds
And only heaven knows if I will make it back to you
So I, I just keep running

And I said, oh
And only heaven knows if I will make it back to you

Where the sand runs into the ocean's where I'll get lost
And let the raindrops fall all around the castle of cards
Faced with the lions, I felt the courage leading my heart
Cause even I know every battle leaves you with scars

So now I'm running like you set me free out in the wild
I know you want me to come home but it might take a while
I got my heart in my hands while my head's up in the clouds
And only heaven knows if I will make it back to you
So I, I just keep running

And I said, oh
And only heaven knows if I will make it back to you

I just keep running
Oh, I'll never stop running
Only heaven knows, only heaven knows
So I, I just keep running

Only heaven knows, only heaven knows
I just keep running
And only heaven knows if I will make it back to you
I was a child walking with giants a hundred feet tall
