Control Me

Control me, can you control me? All of a sudden she arrives in $\ensuremath{\mathsf{my}}$ mind in $\ensuremath{\mathsf{my}}$ hind sight

She whispers all this time I've been gone She say she can't sleep the night without me.

You've got my body, playing me out of my mind sometimes, get on Get On (Control freak)

Baby I've got the feeling that you want me Maybe I love your swagger but you're such a cheat Don't even know you, you

I can't stop thinking about you And all the things we could do Tell me to stop, tell me to move Baby, we've got nothing to lose.

You've got my body, playing me out of my mind sometimes, get on

Control freak

Baby I've got the feeling that you want me
Maybe I love your swagger but you're such a cheat
Don't even know you, you
But I got to, gotta know you and all of what you're into
Tripping and skipping these records for the sound fool
Wanna bring out the freak in you

Control Me, can you control me Control Me, can you, can you, you

Control freak

Baby I've got the feeling that you want me
Maybe I love your swagger but you're such a cheat
Don't even know you, you
But I got to, gotta know you and all of what you're into
Tripping and skipping these records for the sound fool
Wanna bring out the freak in you
