

# Drive

Steve Aoki

Don't stop for the red light  
I'm down for it all night  
I know the magic ain't lost  
Stayin' up till the sunrise

I'm here on the west side  
I'm here for the whole ride  
I know the magic ain't lost  
Stayin' up till you come by

I need your love  
My mind's made up  
I need your love  
Why don't you take your car and...

Drive to me, drive to me  
Don't wait for your head to doubt it  
Pull up to my body, baby  
Drive, drive, drive, drive

Drive to me, drive to me  
Don't wait for my heart to doubt it  
Pull up to my body, baby  
Drive, drive, drive, drive

Lonely  
Kinda missing you and I  
Tell me  
Do you too from time to time?  
'Cause I can't sleep  
Will you come over tonight?  
Hurry  
Cuz right now

I need your love  
My mind's made up  
I need your love  
Why don't you take your car and...

Drive to me, drive to me  
Don't wait for your head to doubt it  
Pull up to my body, baby  
Drive, drive, drive, drive

Drive to me, drive to me  
Don't wait for my heart to doubt it  
Pull up to my body, baby  
Drive, drive, drive, drive
