

# Equal in the Darkness

Steve Aoki

Oh, my love  
Slip out of your good clothes  
Into something comfortable  
No need to try

Tell me about your heroes  
Tell me what I need to know  
I'm on your side

Oh, my love  
The lights are low  
And we're enough  
I hope you know

It don't matter wherever we go  
We're just people in the darkness  
Don't know what we started  
We all need somebody to hold  
We're just people in the darkness  
Equal in the darkness

The things that we can't see  
Are the most beautiful, beautiful to me

We all need somebody to hold  
We're just people in the darkness  
Equal in the darkness

People in the darkness  
Equal in the darkness  
People in the darkness  
Equal in the darkness  
People in the darkness  
Equal in the darkness  
People in the darkness  
Equal in the darkness

What about the headlights?  
Thinking we're unstoppable  
Saving our change, yeah  
You and I, we both keep dreaming the impossible  
Finding our place

Oh, my love  
You should know

It don't matter wherever we go  
We're just people in the darkness  
Don't know what we started  
We all need somebody to hold  
We're just people in the darkness  
Equal in the darkness

The things that we can't see  
Are the most beautiful, beautiful to me

We all need somebody to hold

We're just people in the darkness  
Equal in the darkness

People in the darkness  
Equal in the darkness  
People in the darkness  
Equal in the darkness  
People in the darkness  
Equal in the darkness  
People in the darkness

It don't matter wherever we go  
We're just people in the darkness  
Don't know what we started  
We all need somebody to hold  
We're just people in the darkness  
Equal in the darkness

It don't matter wherever we go  
We're just people in the darkness  
Don't know what we started  
We all need somebody to hold  
We're just people in the darkness  
Equal in the darkness

People in the darkness  
Equal in the darkness
