

# Imagine

Steve Aoki

I'm losing my mind  
The way you make me feel inside it's  
It's making me high  
Imaginations running wild

Under your control  
Don't you let me go  
Take my heart and soul  
I'd give you it all  
Don't know what to believe  
It feels like a dream  
What you do to me, what you do

I want all the good things  
I want all the bad things  
I want it with you  
I can only imagine  
The pain and the passion  
I want it with you

I want it with you  
I want it with you  
I want it with you  
I want it with you

I'm losing my mind  
The way you make me feel inside it's  
It's making me high  
Imaginations running wild

Under your control  
Don't you let me go  
Take my heart and soul  
I'd give you it all  
Don't know what to believe  
It feels like a dream  
What you do to me, what you do

I want all the good things  
I want all the bad things  
I want it with you  
I can only imagine  
The pain and the passion  
I want it with you

I want all the good things  
I want all the bad things  
I want it with you  
I can only imagine  
The pain and the passion  
I want it with you

I want it with you  
I want it with you  
I want it with you  
I want it with you  
I want it with you

I want all the good things  
I want all the bad things  
I want it with you  
I can only imagine  
The pain and the passion  
I want it with you
