

Love You More

Steve Aoki

Love till infinity

I follow the attraction
Even if it don't make sense
Heaven is destruction
Of what I thought I knew back then

I just wanna fight you
When we're standing face to face
Freaking out cause it's getting real
So this is how love feels (uh huh)

And with every rule you break
Every risk you dare to take
There's one thing I can't ignore
It's that I
Love you more
It's that I
Love you more
It's that I
Love you more
There's one thing I can't ignore
It's that I
Love you more

Had to be my savior
Love to hate that you're so right
What's with your bad behavior
Is it a mirror of mine?

If I just wanna fight you (love)
When we're standing face to face
Freaking out cause it's getting real
So this is how love feels (uh huh)

And with every rule you break
Every risk you dare to take
There's one thing I can't ignore
It's that I
Love you more
It's that I
Love you more
It's that I
Love you more
There's one thing I can't ignore
It's that I
Love you more

Girl I love you till infinity
Love you with all my abilities
Loved you since you walked into my vicinity
Girl you number one, you the top pedigree
Can't nobody touch you, no comparabilities
Me and you we go that electricities
We gonna start a family really no fantasy
You plus me is three
One two three

Start the legacy
Let me love you with infinite possibilities
Hand on heart I hope we learn from our stupidities
I promise I'ma protect all your vulnerabilities (oh yeah)
Simply put I love you multiplicity

And with every rule you break
Every risk you dare to take
There's one thing I can't ignore
It's that I
Love you more
It's that I
Love you more
It's that I
Love you more
There's one thing I can't ignore
It's that I
Love you more

Love, love till infinity
(Love you more)
(Love you more)
Love, love, love till infinity
