

Mad

Steve Aoki

I know that I pull this shit like a million times
I know that you've given me like a billion tries
Not one to ever care when or where to draw the line
I get on my mind, my state of my mind

I know that I pull this shit like a million times
I know that you've given me like a billion tries
Not one to ever care when or where to draw the line
I get on my mind, my state of my mind

Can't help they made me like that
Love talking that smack
Then pulling you back
I get wet from lighting a flame
Then making you scream
I know you dying for a break

I like you better when you're mad
Want you fucked up in the head
Make it better in the bed, yeah
I, I like it better when you're mad
It's kinda sexy when we fight
Then we kiss and make it right, yeah, yeah

I like you better when you're mad
Want you fucked up in the head
Make it better in the bed, yeah
I, I like it better when you're mad
It's kinda sexy when we fight
Then we kiss and make it right, yeah

Fucked in the back, everybody get loud
Fucked in the back, everybody get loud
Fucked in the back, everybody-

I like it better when you're mad
Want you fucked up in the head
Make it better in the bed, yeah
I, I like it better when you're mad
It's kinda sexy when we fight
Then we kiss and make it right, yeah

Sticky like honey, you can't get me off your mind
Stuck on my crazy and getting me off every night
My instigating should probably push you away
But it makes you stay, you always stay

I like you better when you're mad
Want you fucked up in the head
Make it better in the bed, yeah
I, I like it better when you're mad
It's kinda sexy when we fight
Then we kiss and make it right, yeah, yeah

I like you better when you're mad
Want you fucked up in the head
Make it better in the bed, yeah

I, I like it better when you're mad
It's kinda sexy when we fight
Then we kiss and make it right, yeah

Fucked in the back, everybody get loud
Fucked in the back, everybody get loud
Fucked in the back, everybody-

I like it better when you're mad
Want you fucked up in the head
Make it better in the bed
I, I like it better when you're mad
It's kinda sexy when we fight
Then we kiss and make it right, yeah
