

Move On

Steve Aoki

I wish you were here
Here
I wish you were here
Here
I wish you were here

See you at every party
At the bars on Friday nights
I still catch your car, babe
With a dent on the driver's side
There is no way to run
No way to hide
No where to go in a town this size
There is no one for me
What can I do
How can I move on from you?
How can I move on from you?
How can I move on from you?
How can I move on from you?
How can I move on from you?

All my friends are your friends
So how am I gonna cut the ties
When somebody says your name now
It's like the twist of a knife
Right in my chest
With you on my mind...
Message me I'll keep your memory alive
There is no one for me
What can I do
How can I move on from you?
Cause every time I'm close to you
Maybe getting over you
Baby there you are
How am I supposed to do what I'm supposed to do
You're making it so hard for me to get you out of my heart, my head
Cause every time I see you, it sends me right back where I've been
And I miss you again
And I miss you again

How can I move on from you?

How can I move on from you?
How can I move on from you?

How can I move on from you?

Get you out of, get get you out of, get you out of my heart, my head
Get you out of, get get you out of, get you out of my heart, my head
