

## New Blood

Steve Aoki

Hanging on  
By a thread  
I was seconds from falling  
Thought I gave  
All I had

At the ends  
Where I found  
All the strength to keep going  
And it changed everything

Hit me like a raging wind  
So hard that I can't resist  
Everything I used to know  
Slowly going up in smoke

Colors that I've always seen  
Are brighter than they used to be  
I know I can live forever  
In this never ending Indian summer

Thought I took  
My last breath  
It was just the beginning  
Had to burn to shed my skin

Inside out  
Upside down  
Got me twisting and turning  
Cause I found  
Found myself

Now I feel lighter  
It takes me Higher  
Hotter than the burning sun  
Now I know I got new blood
