Nobody

Was lonely  
Until we met  
I know you're someone in my life  
I can't forget  
I see it  
I'm ahead of it  
I can't mold you into shapes and not control ya

It feels right so I might  
But its like what I try  
Cause I like what I feel  
I don't need somebody else

But my heart feels so lost in the dark  
Where we are  
Could you let go of my feet  
Cause I need your body yeah

Hold me  
Love me  
Caress me  
Like nobody

Cause when you hold me close  
My skin is screaming  
Can you tell  
I gotta to let you go  
No I don't want nobody else  
So put your money up  
Can't go without your body  
But do you really love me  
Then I don't need nobody else

Nobody  
No I don't need nobody else  
Nobody

You're different  
Even when we met  
On my shoulders lead the way to carry it  
I see it  
I'm ahead of it  
I can't mold you into shapes and not control ya

It feels right so I might  
But its like what I try  
Cause I like what I feel  
I don't need somebody else

But my heart feels so lost in the dark  
Where we are  
Could you let go of my feet  
Cause I need your body yeah

Hold me

Love me  
Caress me  
Like nobody

Cause when you hold me close  
My skin is screaming  
Can you tell  
I gotta to let you go  
No I don't want nobody else  
So put your money up  
Can't go without your body  
But do you really love me  
No I don't need nobody else

I don't need nobody else  
Nobody  
No I don't need nobody else  
Nobody  
No I don't need nobody else
