

Play It Cool

Steve Aoki

Hold tight for me
Don't get comfy
My type I see
And I know that you know me
I move my feet
She follow me
Into the streets
There's a bar at the hotel
So let's go be the clientele
'Cause we look like the cartel
Yeah yeah yeah yeah
I'm addicted to you right now
And I want it to stay round
Tell your powers to calm down
Yeah yeah yeah yeah
There's something about you

Baby I like the way that you keep moving 'round the place
And when you dancing in my face
Oh I just play it cool
Baby I like the way that you keep moving 'round the place
And when you dancing in my face
Oh I just play it cool

I speak French qui
It's c'est la vie
Your energy's taking over me
Don't stop
Got me a feelin' a whole lot
Tell your powers to calm down
Yeah yeah yeah yeah
There's something about you

Baby I like the way that you keep moving 'round the place
And when you dancing in my face
Oh I just play it cool
Baby I like the way that you keep moving 'round the place
And when you dancing in my face
Oh I just play it cool

Baby I like the way that you keep moving
The way that you keep moving
The way that you keep moving
The way that you keep moving
The way that you keep moving
The way that you keep moving
The way that you keep moving

Baby I like the way that you keep moving 'round the place
And when you dancing in my face
Oh I just play it cool
Baby I like the way that you keep moving 'round the place
And when you dancing in my face
Oh I just play it cool

Baby I like the way that you keep moving
The way that you keep moving

The way that you keep moving
The way that you keep moving
The way that you keep moving
The way that you keep moving
The way that you keep moving
