

Talk About Love

Steve Aoki

Don't wanna talk about love
Don't wanna write another song that isn't true
Don't wanna talk about love
If love ain't with you (Love ain't with you)

Love songs on the radio
Oh, they keep playin', they keep playin'
And all the couples in the back row
They misbehavin', so overrated

I'm so sick of swiping left when it's not right for me (Not right for me)
Getting lost in these faces that love ain't with you, love ain't with you
(Love ain't with you, love ain't with you)

Don't wanna talk about love
Don't wanna write another song that isn't true
Don't wanna talk about love
If love ain't with you, love ain't with you

Night out, goin' solo
All eyes are on me 'cause I'm so lonely
Finding friends and cheap alcohol
I drink it slowly 'cause I'm so lonely

I'm so sick of swiping left when it's not right for me (Not right for me)
Getting lost in these faces that love ain't with you, love ain't with you
(Love ain't with you, love ain't with you)

Don't wanna talk about love
Don't wanna write another song that isn't true
Don't wanna talk about love
If love ain't with you, love ain't with you

Talk, talk, talk
Talk about it, la-la-la
Talk, talk, talk
Talk about love

Don't wanna talk about love
Don't wanna write another song that isn't true
Don't wanna talk about love
If love ain't with you
