

This bars 'bout out of beer
But I'm far from out of gas
So let's throw this thing in gear
And we can see how long it lasts
Leave downtown in the rear view
Put your feet up on the dash
You've made it pretty clear you
Wanna get somewhere fast

That's just the two of us
With the two lane view kicking up some dust
Sun setting down in front of us
Get a little dirty, real dangerous
My little wanderlust
And I wonder why
Your hand feels so good under mine
Looking like an Amarillo sky
In your eyes
I'm hypnotized
And that's just the two of us

We can make it if we drive to find a little spot to pull on over, baby
We can make it if we drive to find a little spot to pull on over, baby

Kiss me once, kiss me twice
Feels so good baby, feels so right
And I got you, if you've got me
Girl, we don't need us nothing else and nobody but

Just the two of us
With the two lane view kicking up some dust
Sun setting down in front of us
Get a little dirty, real dangerous
My little wanderlust
And I wonder why
Your hand feels so good under mine
Looking like an Amarillo sky
In your eyes
I'm hypnotized
And that's just the two of us

We can make it if we drive to find a little spot to pull on over, baby

Crossing all them county lines
See move a little closer baby

(We can make it if we drive)
(Crossing all them county lines)

That's just the two of us
With the two lane view kicking up some dust
Sun setting down in front of us
Get a little dirty, real dangerous
My little wanderlust
And I wonder why
Your hand feels so good under mine
Looking like an Amarillo sky

In your eyes
I'm hypnotized
And that's just the two of us

We can make it if we drive to find a little spot to pull on over, baby
Crossing all them county lines
See move a little closer baby

We can make it if we drive to find a little spot to pull on over, baby
We can make it if we drive to find a little spot to pull on over, baby
