

# Building Me A Fire

Steve Forbert

Well, I'm lonely now  
More than I used to be  
I need more from you  
More than you need from me  
Well, I'm stranded here  
But I don't need to be

So I'm building me a fire and  
The smoke's gonna leave you  
So I'm building me a fire and  
The smoke's gonna leave you  
Now I'm building me a fire and  
The smoke's gonna leave... you

Well, my solitude  
Sure gave me peace of mind  
It may all... the crooked ways  
That much harder to find  
But they're all I knew  
Became a memory

So I'm building me a fire and  
The smoke's gonna leave you  
Now I'm building me a fire and  
The smoke's gonna leave you  
So I'm building me a fire and  
The smoke's gonna leave... you

Well, I'm stranded here  
But I don't need to be

So I'm building me a fire and  
The smoke's gonna leave you  
So I'm building me a fire and  
The smoke's gonna leave you  
Now I'm building me a fire and  
The smoke's gonna leave... you

Well, I'm lonely now  
Well, I'm lonely now  
Well, I'm lonely now
