# Can't We Get Together?

**Steve Forbert**

Can't we get together in the same time zone?
I could wait forever, but it's all that time alone
Can't we get together?
Can't it be that good?
Things don't tend to work out like I planned them
But they could, but they could

What could be more subtle than a rose in bloom?
Another great remark from you
I just like to hear it in the same damn room
As who it is I'm talking to

Can't we get together in the same time zone?
I could wait forever, but it's all that time alone
Can't we get together?
Can't it be that good?
Things don't tend to work out like I planned them
But they could, but they could

Where are you tonight up so far from me?
Even though the storm fronts glow
Right there besides you is where the hell I'd be
Listening to the same rainfall

Can't we get together in the same time zone?
I could wait forever, but it's all that time alone
Can't we get together?
Can't it be that good?
Things don't tend to work out like I planned them
But they could, but they could

No one's every made it through the U.S. Mail
Talking on the phone won't do
We talk every evening baby, without fail
But I'm not in touch with you

Can't we get together in the same time zone?
I could wait forever, but it's all that time alone
Can't we get together?
Can't it be that good?
Things don't tend to work out like I planned them
But they could

Can't we get together in the same time zone?
I could wait forever, but it's all that time alone
Can't we get together?
Can't it be all right?
I could leave this morning and be there tomorrow night, om
