

## Let's Get High

Steve Forbert

C'mon, baby, baby, baby, babe, an' let's get high  
Let's get high on life itself  
And let the days roll by  
There's no time to lose  
Slip back in your shoes  
Walk outside the blues  
While the sun still shines

C'mon, baby, baby, baby, babe, an' let's get up  
Let's get up to where it is  
That says we've filled our cup  
Way up near the brim  
Jump on in and swim  
Walk out on a whim  
While the sun still shines

Nighttime feels so lonesome  
Night's so dark and vast  
When autumn's come and gone  
The sunny days fade fast

C'mon, baby, baby, baby, babe, an' lets get gone  
Let's get gone to where it is  
That's shim'ring on and on  
Get back in it all  
Walk outside your wall  
Hear them bluejays call  
While the sun still shines  
C'mon, baby, baby, baby, babe, an' let's get high
