

Real Live Love

Steve Forbert

I've got a real good feeling' tonight
That you are ready to see
That out of all them cats in your life
You're goin' crazy for me
I felt good luck rise with the tide
And all the stars are in tune
I've got the whole night sky on my side
I'm in cahoots with the moon

You're talkin' two shades of sweeter tonight
Than even ever before
I'm gonna cross my fingers and wait
When we get up to your door
And when you turn that lock with your key
That's when you're gonna decide
That you and me got somethin' we need
And that it can't be denied

And that's a real (real), live (live), love (love)
Talkin' 'bout real (real), live (live), love (love)

Alright...

I've been a long time patient and calm
About this thing I believe
But after all this waiting 'round
I'm just a little bit peeved
But there's been a love light lit in your eyes
Since we was out on the shore
And I've got a real good feelin' tonight
Is goin' to open the door

To some real (real), live (live), love (love)
Talkin' 'bout real (real), live (live), love (love)
I'm movin' toward a real (real), live (live), love (love)
I'm dreamin' of a real (real), live (live), love (love)
