

# Simply Must Move On

Steve Forbert

High school weren't that bad  
Some of it was fun  
The jazz band got to swing, yeah  
The track team got to run

But all that's in the past  
And summer's come and gone  
It's off to college now  
You simply must move on

Gotta move on to another kinda time and space  
Gotta move on in the ever running human race  
Gotta move on, on the whistle blower starts to blow  
Go

Your marriage could not last  
A meltdown to divorce  
The whole things over now  
It's over yes of course

You stand out on the street  
The whole lawn's overgrown  
You look suspicious here  
You simply must move on

Gotta move on to another kinda time and space  
Gotta move on in the ever running human race  
Gotta move on, on the whistle blower starts to blow  
Go

Your home's a lovely place  
You love it goodness knows  
The perfect part of town  
It's value only grows

But now it's grown too much  
The taxes here alone  
You can't afford to stay  
You simply must move on

Gotta move on to another kinda time and space  
Gotta move on in the ever running human race  
Gotta move on, on the whistle blower starts to blow  
Go

The ceiling's squiggly here  
They move ya somewhere's else  
Your mind keeps shifting gears  
Your kids are on themselves

Your next moves off the map  
Beyond the twilight zone  
You can't stay one more day  
You simply must move on

Gotta move on to another kinda time and space  
Gotta move on in the ever running human race

Gotta move on for the whistle just about to blow  
Go

Go

Go

Go
