

You're Darn Right

Steve Forbert

If you think I'm happy just to sing my song
Just to stomp my feet and dance
And let the sun go down
And let the moon come up
And leave the whole night up to chance

You're darn right dear brother
You got my cup of tea
You're darn right dear brother
You got my recipe
You're darn right dear brother
Darn right about me

If you think I'm ready for a real high time
When I walk in with a grin
And hear the guitars plain' with the mandolin
And see my good time my high time my friends

You're darn right dear brother
You got my cup of tea
You're darn right dear brother
You got my recipe
You're darn right dear brother
Darn right about me

If you think I like it when she talks to me
And let's the good vibration flow
If you think I'm willing when she takes my hand
And says I think it's time to go

You're darn right dear brother
You got my cup of tea
You're darn right dear brother
You got my recipe
You're darn right dear brother
Darn right about me
