

# We Are the Night

Steve Grand

We are the night  
We are the yellow moon in the sky  
We are the ambler glow  
Of a firelight  
In a lover's eyes

We are the dark  
We are a hundred billion stars  
We are the heavy hearts on the subway cars  
We are the night

We are the night  
They're gonna say we just ain't right  
But we are the night  
We are the night

And we just wanna be free  
Is there anything more lovely?  
We got our whole lives to love  
And tonight we're as young as we'll ever be  
So don't you never look back  
Today could be our last  
And we'll just live as we are  
Unmoved by the darkness we face  
Cause we are the night  
They're gonna say we just ain't right  
But we are the night  
We are the night

We are the brave  
We are the ones they couldn't shake  
Ain't part of that machine  
So unshamefully, we ignite

We are the light  
And we're just tryin' to get it right  
We won't stop pressin' on  
Through the firestorms  
We will rise

We are the night  
They're gonna say we just ain't right  
But we are the night  
We are the night

And we just wanna be free  
Is there anything more lovely?  
We got our whole lives to love  
And tonight we're as young as we'll ever be  
So don't you never look back  
Today could be our last  
And we'll just live as we are  
Unmoved by the darkness we face  
Cause we are the night  
They're gonna say we just ain't right  
But we are the night  
We are the night

So for every boy and every girl  
No matter who you love  
And for all my trans brothers and sisters  
Of every race, in every place around this globe  
It's our time  
We will rise

And we just wanna be free  
Is there anything more lovely?  
We got our whole lives to love  
And tonight we're as young as we'll ever be  
So don't you never look back  
Today could be our last  
And we'll just live as we are  
Unmoved by the darkness we face  
Cause we are the night  
They're gonna say we just ain't right  
But we are the night  
We are the night
