Blues with a Feeling

Steve Hackett

Blues with a feeling, that's what I have today
Blues with a feeling, that's what I have today
I'm gonna find my woman if it takes all night and day

What a lonesome feeling when you're by yourself
What a lonesome feeling when you're by yourself
When the one that you're loving has run off with someone else

You know I love you baby
Tell you the reason why
Gone and left me, baby
Left me here to cry

Blues with a feeling, that's what I have today
I will find my woman if it takes all night and day

What a lonesome feeling...

You know I love you baby
Tell you the reason why
Gone and left me, baby
Left me here to cry

Blues with a feeling, that's what I have today
I will find my woman if it takes all night and day
